

W. L. DOUGLAS

\$3.50 & \$3.00 SHOES FOR MEN

W. L. Douglas \$4.00 Gilt Edge Line cannot be equalled at any price.

W. L. DOUGLAS MAKES & SELLS MORE NEW \$3.50 SHOES THAN ANY OTHER MANUFACTURER IN THE WORLD.

\$10,000 REWARD to anyone who can disprove this statement.

It could take you into my three large factories at Brockton, Mass., and show you the infinite care with which every pair of shoes is made, you would realize why W. L. Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe.

W. L. Douglas Strong Made Shoes for Men, \$2.50, \$2.00, Boys' School & Dress Shoes, \$2.50, \$2.00, \$1.75, \$1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. Name genuine without his name and price stamped on bottom.

Fast Color Eyelets used; they will not wear away. Write for Illustrated Catalogue.

W. L. DOUGLAS, Brockton, Mass.

YOU CANNOT

CURE

all inflamed, ulcerated and catarrhal conditions of the mucous membrane such as nasal catarrh, uterine catarrh caused by feminine ills, sore throat, sore mouth or inflamed eyes by simply dosing the stomach.

But you surely can cure these stubborn affections by local treatment with

Paxtine Toilet Antiseptic

which destroys the disease germs, checks discharges, stops pain, and heals the inflammation and soreness.

Paxtine represents the most successful local treatment for feminine ills ever produced. Thousands of women testify to this fact. 50 cents at druggists.

Mrs. Mittie Huffaker.

HAD GIVEN UP ALL HOPE. CONFINED TO HER BED WITH DYSPEPSIA.

"I Owe My Life to Pe-ru-na," Says Mrs. Huffaker.

Mrs. Mittie Huffaker, R. R. No. 8, Columbia, Tenn., writes:

"I was afflicted with dyspepsia for several years and at last was confined to my bed, unable to sit up."

"We tried several different doctors without relief."

"I had given up all hope of any relief and was almost dead when my husband bought me a bottle of Pe-ru-na."

"At first I could not notice any benefit, but after taking several bottles I was cured sound and well."

"It is to Pe-ru-na I owe my life today."

"I cheerfully recommend it to all sufferers."

DOUBLE TRAGEDY.

Miner Shoots His Wife and is Shot by Officer.

Goldfield, Nev.—Rhyolite, the principal town in Bullfrog district, was the scene on Friday of a double tragedy. Steve O'Brien, a miner, shot and killed his wife. Deputy Sheriff McDonald attempted to disarm and arrest O'Brien, who drew a revolver and was about to shoot when McDonald fired and O'Brien dropped dead. The shooting occurred at the Hotel Golden on Goldfield street. Steve O'Brien had been on bad terms with his family for some time and his wife was about to proceed to get a divorce. He entered the house and after a few heated words shot his wife in the face. She was carried to a drug store, where she died.

O'Brien came out of the lodging house where he lived. In the meantime people had heard of the shooting and a great crowd surrounded the place and preparations were made to mob and hang him. Deputy Sheriff McDonald and Justice of the Peace Donnelly rushed to the scene. As O'Brien was attempting to make his escape, carrying a pistol in one hand and a miners' candlestick in the other, Deputy Sheriff McDonald arrived and in a melee O'Brien stabbed him just below the heart with the sharp end of the miners' candlestick, just breaking the skin. When McDonald ordered O'Brien to drop the pistol and candlestick he refused and made an effort to shoot. McDonald anticipated him and shot him through the heart. O'Brien dropped dead in his tracks.

CANADIAN TOWN BURNED.

Several People Reported Killed by an Explosion.

North Bay, Ont.—A report has reached here that the town of Cobalt, one of the mining centers in New Ontario, has been completely destroyed by fire. It is also stated that several people were killed by an explosion.

The town of Cobalt is the center of Canada's newly developed silver mining district. It is south of Hudson Bay and about 300 miles north of Toronto.

There were about twenty stores in the town. About twenty mines in the district are now in operation.

FOREST FIRES IN MICHIGAN.

Reported That Three Towns Have Been Destroyed.

Detroit, Mich.—Fragmentary reports have reached the Detroit News and Free Press from Escanaba and Gladstone, Mich., stating that a disastrous forest fire is raging in the upper peninsula in the neighborhood of the two cities mentioned. It is reported that thirty square miles of territory have been devastated, and that several persons have been burned to death.

SENATE PASSES THE RATE BILL

Only Three Votes Against the Measure When it Came to a Showdown.

After Seventy Days of Deliberation, Bill is Passed, Senators Foraker, Morgan and Pettus Being the Only Ones to Vote Against It.

Washington.—After seventy days of almost continuous deliberation the senate at 4:53 p. m., on Friday, passed the railroad rate bill by the practically unanimous vote of 71 to 3. The three negative votes were cast by Senators Foraker (Rep.) of Ohio, and Morgan and Pettus (Dems.) of Alabama.

The bill has received more attention from the senate and from the country at large than any measure that has been before congress since the repeal of the purchasing clause of the Sherman act in 1893. It was reported to the senate on February 26, and was made the unfinished business on March 12. From March 12 to May 4 the bill was under general discussion without limitation on the duration of speeches, fifty-eight of which were delivered. Many of these were prepared with great care, and two of them consumed more than a day's time in delivery. Senator LaFollette, the junior senator from Wisconsin, spoke for three days, and Senator Daniel of Virginia for two days. Senators Bailey, Foraker, Lodge, Rainey, Dooliver and others each spoke for an entire day.

For twelve days the bill has been under consideration under a rule limiting speeches to fifteen minutes each. The senate has at all times been earnest and animated, but for the most part devoid of personality as between senators, the last few days, however, having called out some caustic criticisms of the president and of some newspaper correspondents by Senator Bailey.

RACE WAR STARTED IN ST. LOUIS OLD NEW YORK

Little Town on the Hudson Under Martial Law as Result of War Between Whites and Negroes.

Coeysmans, N. Y.—What is practically martial law reigns in this little town on the west bank of the Hudson river, twelve miles south of Albany. The strike of the brickmakers, in force all along the Hudson, broke into riot here early Wednesday morning and after a pitched battle between the 500 union strikers and nearly as many non-union men, in which one man was severely wounded, four Albany companies of militia, about 250 strong, were ordered to Coeysmans, arriving here early in the evening. Negroes are imported annually in the spring for extra work and they refuse, as a rule, to join the union for the short time they are here. The main demand of the strikers is for recognition of the union by the employment of only its members.

WLL GRANT AMNESTY.

Czar Evidently Determined to Avoid a Breach.

St. Petersburg.—In spite of the fear that the addresses in reply to the speech from the throne Tuesday in the lower house of parliament would precipitate an immediate conflict between the crown and parliament, it is said that Emperor Nicholas is determined to avoid a breach if possible.

Not only will political amnesty be granted, but the emperor is ready to replace the Goremynkin ministry with a cabinet chosen from among the conservative members in the lower house in the hope of effecting a compromise. He is not willing, however, to permit the majority to select the premier, but once such a concession is made it is difficult to understand how the emperor can halt half-way and refuse a full constitutional monarchy, which government by parliamentary majority involves. Practically parliament already has won a great victory.

AGAINST THE PRESIDENT.

Senate Committee Votes in Favor of Sea Level Canal.

Washington.—The senate committee on inter-oceanic canals voted on Wednesday in favor of constructing a sea level canal. Senator Carmack's return from Tennessee broke the deadlock which occurred at a former meeting.

The vote was had on a resolution presented by Senator Kittredge declaring it to be the sense of the committee that the construction of a sea level canal be recommended. On motion the affirmative votes were Messrs. Platt, Kittredge, Ankeny, Morgan, Carmack and Tallaferrro.

Chairman Millard voted in the negative.

Sensors Knox, Hopkins, Simmons and Dryden were not present. All of these are supporters of the lock type.

GREENER IS INNOCENT.

Victim of Assistant Secretary Peirce Will Be Reinstated.

Washington.—Having satisfied the state department officials that the charges against him contained in Assistant Secretary Peirce's confidential report were without sufficient foundation and that he was the victim of mistaken identity in some measure, Richard T. Greener, late commercial agent at Vladivostok, Siberia, will be given an appointment in the consular service when a suitable opening is found.

Standard Oil Company Boosts Price of Gasoline.

Cleveland.—The Standard Oil company has announced an additional advance in the selling price of all high grades of gasoline. Seventy to 72 cents test gasoline is advanced half cent per gallon, while all other high grades are put up 1 cent per gallon. An official of the Standard Oil company said that the demand for high grade gasoline is unprecedented owing to its heavy consumption in connection with automobiles.

Body Found in Cesspool.

Granite City, Ill.—The headless body of a man was found in a cesspool in the rear of a Madison saloon, not far from where John Hickey, an overland traveler to Oklahoma, was sandbagged and killed last week. The absence of the head, it is believed, indicates that the man was murdered by an injury to the head and it was removed to prevent identification. No other marks of violence were found on the body. The body evidently had lain in the cesspool for several months.

Suspect Arrested.

Bingham, Me.—Jerry Hayes, alias J. Moulton, was arrested here on the charge of having murdered Mabel Page, for whose death Charles L. Tucker has been sentenced to die next month. Hayes, who was at work at a railroad construction camp, was taken to the county jail at Skowhegan. He was taken into custody on a warrant issued from the municipal court on a complaint sworn to by Henry I. Hatfield, a clerk in the office of the attorney for Tucker.

Sunlight for All the Leaves.

The telegraph plant of India has a method all its own for catching the sunshine. Each of its leaves is composed of three leaflets. The larger terminal one erects itself during the day and turns sharply down at night, while the other two smaller leaflets move constantly, day and night, describing complete circles with a peculiar jerking motion like the second hand of a watch. Occasionally they rest for a period and then go on again, thus bringing every part of every leaf to the full action of the sunlight.—Telegraph Age.

Cold from Electricity.

The direct production of cold from electricity is a problem that electrical engineers are considering. Something may be done by connecting a motor to an air compressor and expanding the compressed air into a cold storage chamber, but this is costly and cumbersome. We may expect the electro-chemist to refrigerate by energy from the electric supply mains through some such direct method as a reversed battery abstracting heat from the air.

Free Milk for Travelers.

A curious custom still holds good in the village of Waddesdon, in Buckinghamshire, where on any morning or evening of the year a person can claim a free drink of new milk from a cow specially kept for the benefit of thirsty wayfarers. This animal is known locally as the "alms cow," and when she dies another has to be provided by the parish authorities.

When Most Accidents Occur.

It has been observed that the number of accidents increases progressively from hour to hour during the first half of the day, says an English scientist: after the midday rest, in the first hours of the afternoon, the number is notably less than in the last hour of the morning.

CORDIAL INVITATION

ADDRESSED TO WORKING GIRLS

Miss Barrows Tells How Mrs. Pinkham's Advice Helps Working Girls.

Girls who work are particularly susceptible to female disorders, especially those who are obliged to stand on their feet from morning until night in stores or factories.

Day in and day out the girl toils, and she is often the bread-winner of the family. Whether she is sick or well, whether it rains or shines, she must get to her place of employment, perform the duties exacted of her—smile and be agreeable.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All these symptoms point to a derangement of the female organism, which can be easily and promptly cured by Lydia E. Pinkham's Vegetable Compound.

Miss Abby F. Barrows, Nelsonville, Athens Co., Ohio, tells what this great medicine did for her. She writes:

Dear Mrs. Pinkham:—

"I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them, I was very nervous, and had headaches, pains in back, and periods were irregular. I had been to several doctors, and they did me no good."

"Your medicine has made me well and strong. I can do most any kind of work without complaint, and my periods are all right."

"I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer."

It is to such girls that Mrs. Pinkham holds out a helping hand and extends a cordial invitation to correspond with her. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Her long record of success in treating women's ills makes her letters of advice of untold value to every ailing working girl. Address, Mrs. Pinkham, Lynn, Mass.

RHEUMATIC CURE

Satisfaction guaranteed or money refunded. Trial size bottle by mail 75 cents. LIMEY & CO., New Haven, Conn.

When Answering Advertisements Kindly Mention This Paper.

African Soldiers.

"Make soldiers of them," is the London Standard's plan of keeping the troublesome tribes of South Africa in order. It says the men now giving trouble to the Natal authorities would make "a powerful force of trained soldiers, whose bravery and marksmanship would be equal to those of the best European troops, while their marching powers and hardihood would be far superior."

Women's Dexterity.

In some employments, requiring dexterity and quickness, women are far more valuable than men. For instance, where the folding of large quantities of books or magazines is required, two women can do as much as three men.

Mixed.

Fred—And you mean to say that Jack has not married Miss Payn? Why the girl was just throwing herself at him the last time I saw them.

Ted—My dear fellow, did you ever know a woman who could throw straight?—Stray Stories.

Strong Nerve.

"I understand that you advertised for a stenographer and typewriter at three dollars a week."

"I did."

"Hours nine to six?"

"Yes. Are you an applicant?"

"No, but my nerves are run down, and I just wanted to inquire what nerve food you used."—Philadelphia Ledger.

Barnacles in England.

The real ruler of England is the permanent official, an easy-going person whose berth is secure and whose pension awaits him when he has put in the fewest number of days that the law allows doing as little in that time as is compatible with keeping awake. The only real passion of his life is a hatred of all reformers.—London Idler.

The Bad Things

You see in jewelry did not come from our ore. We furnish you the best goods only, at a reasonable price, with ample guarantee.
